CIRES EDUCATION & OUTREACH PROGRAM

We provide engagement opportunities for CRES researchers. We support CRES scientists to contribute to education, outreach, training, community engagement and much more.

What we do

- Bring science and scientists into classrooms & learning environments
- Provide professional development for educators and the public
- Develop high-quality educational materials
- Provide early-career opportunities
- Conduct education and outreach project evaluation and educational research

We enhance the broader impacts outcomes of your research. Contact us!

Our mission: CRES Education & Outreach is well-known and trusted partner for connecting CRES science with educators, learners and communities. We strive to make research data accessible, inspire environmental action and empower curiosity and scientific engagement.

We provide accessible, inclusive, high-quality environmental science curriculum and informal learning experiences, as well as meaningful professional and career development opportunities.

How CRES E&O Can Support You & Broaden the Impact of Your Science

WHAT WE DO

- Broaden Impact of your Science
- Evaluation & Educational Research Services
- Early Career Scientist Support
- Development Teaching Materials & Educator Workshops
- Engagement & Outreach Opportunities

- NSF CAREER awards, student engagement, educational videos, teacher workshops, curriculum development, VR experiences
- Surveys, focus groups, needs assessments, usability studies, impact measures, web analytics
- Research Experience for Undergraduates (RECCS) summer mentor opportunity, trainings and workshops, support for graduate fellowships, mentorship support
- Standard-aligned, engaging curriculum, translating of research data into learning materials (Datapuzzles™), Climate education resource clearinghouse (CLEANet.org), Massive Open Online Courses (MOOCs), Teacher trainings and workshops
- Community engagement through traveling exhibit, library take&make kits, speaker series, classroom connections

WE ARE HERE TO HELP!

Ask us to help with:

- Proposals
- Postdoc Mentoring Plans
- Grad Research Fellowship Proposals
- Presentations
- Needs Assessment, Community Building
- Evaluation
- Online Courses
- Webinars
- Digital Resources
- Videos
- Impact Assessment
