

## Climate Literacy and Energy Awareness Network (CLEAN)

Building a foundation of support for climate and energy educators

**CLEAN SUPPORTS TEACHERS WITH** CLIMATE EDUCATION

**CLEAN Collection:** Contains 800+ peer-reviewed educational resources such as activities, lab demos, visualizations, and videos for grades K-16.

### Guidance for Teaching Climate and Energy Science:

Pedagogical support for teaching climate and energy topics, including background knowledge, best classroom practices, NGSS alignment, professional development support, and reference materials.

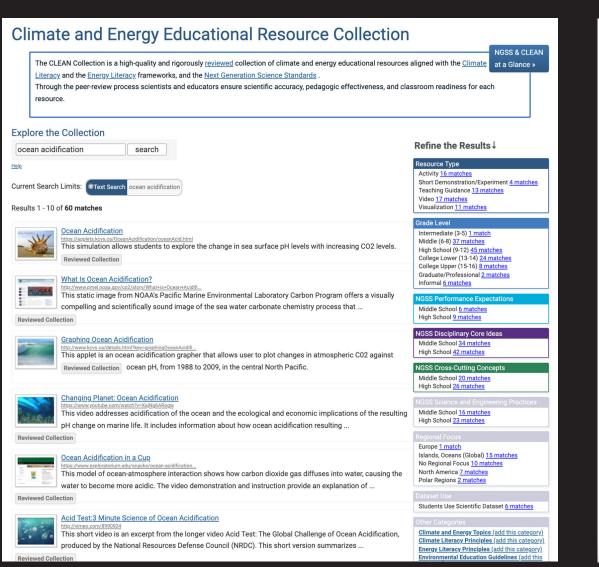

**CLEAN Network:** A professionally diverse community of climate and energy education practitioners.

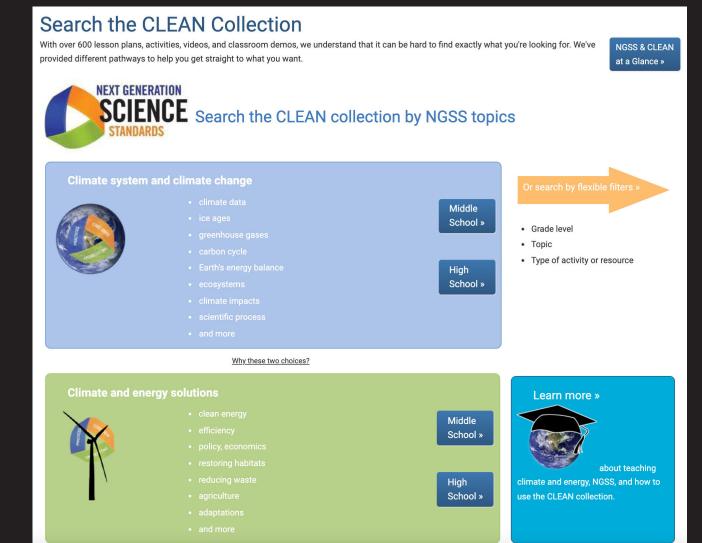

- Weekly teleconferences and presentations
- Vibrant email list
- Workshops and networking opportunities at events and conferences

The CLEAN Network is free to join and is open to anyone.

THE CLEAN COLLECTION (cleanet.org) is syndicated to the NOAA Teaching Climate portal: climate.gov/teaching

#### **Search the CLEAN Collection**

#### **Collection Search Option:**

**Open text search – Grade level – Resource type – Climate literacy principles Energy literacy principles – Use of scientific data – Regional focus Content topic areas – Next Generation Science Standards (NGSS)** 

#### **CLEAN REVIEW PROCESS**

A rigorous and transparent peer-review process is used for the CLEAN collection. Resources that are relevant to one of the climate and energy literacy principles and useful for grade levels K-16 are reviewed. A rigorous review process developed by the Climate Literacy and Energy Awareness Network (CLEAN) by A. Gold et al., Journal of Geoscience Education 2012.

#### Review Process

Review for: a) scientific accuracy, b) pedagogic effectiveness, c) technical quality/ease of use.

Panel Review: Team of four educators and scientists discusses each resource and makes decision about inclusion in CLEAN.

Expert Science Review: Content expert in the field of the resource reviews for scientific accuracy.

Maintenance Review: Ensures ongoing quality of collection.

#### **CLEAN FOR EDUCATORS**

Teaching Guidance: Pedagogical support in alignment with the Climate & Energy Literacy Principles and NGSS including:

- Online support pages
- Webinars
- Regular newsletters
- Unit Guides
- Support for challenging aspects of climate education
- Culturally relevant teaching resources

Background pages available in Spanish & English including:

- Teaching strategies
- Summaries of scientific concepts Relevant teaching resources
  - Reference materials

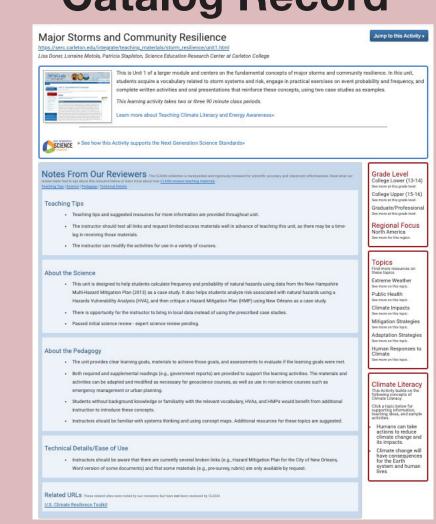

Our Teaching Climate & Energy Toolbox includes many online professional development resources to help you bring climate topics into your classroom.

#### **CLEAN FOR SCIENTISTS**

#### **CLEAN Expert Science Review**

- We recruit volunteer expert scientists to spend 15-30 min each reviewing our resources for scientific accuracy
- Our expert science review boosts CLEAN credibility and gives teachers a reliable collection
- Provides scientists with activities and ideas for sharing their science and broadening their impact

#### **Catalog Record**

CLEAN has been working since 2017 to market the

Kathryn Boyd, Gina Fiorile, Anne Gold, Frank Niepold, Alicia

Christensen, Naomi Ochwat, Monica Bruckner, Sean Fox, Patrick

Chandler, Casey Marsh, Daniela Pennycook, Ami Nacu-Schmidt

- Social Media Engagement
- Professional Development Webinars
- Two CLEAN Newsletters: The CLEAN Educator Newsflash & the CLEAN Network Newsflash
- Work with developers
  - Syndication with sites like PBS Learning & NSTA
  - CLEAN "Selected By" logo
- Presentations at professional conferences
- Targeted outreach to states & school districts

#### MARKETING CLEAN

CLEAN collection to educators. The efforts involved are:

- Teacher Ambassador program

# Climate Literacy and Energy Awareness Network (CLEAN) Webinar

#### **WEB ANALYTICS**

CLEAN tracks website traffic through Google Analytics. Web analytics data show marketing efforts have been successful.

- The CLEAN website and the syndicated CLEAN collection site at NOAA's Climate.gov have received almost 4 million visitors over the 10 years CLEAN has been active!
- After the 2017 marketing efforts, users, new users, and pageviews increased by about 70% in 2018 compared to 2017. The number of users doubled from 2017 to 2022.

Increase in CLEAN web sessions over project lifetime.

#### **GET INVOLVED!**

- Use teaching resources (collection, guidance, webinars) •
- Join the CLEAN Network

Sign up for the STEM Flash Newsletter

Become a CLEAN Ambassador Become a resource reviewer

Submit a resource to the collection
