

CIESRDS Management

The Cooperative Institute for Earth System Research and Data Science, or CIESRDS, is the name of the cooperative agreement between CU Boulder and NOAA through which we support the many CIRES employees working in NOAA facilities. All CIRES leadership is involved in managing CIESRDS, but here we call out Kari Bowen and Lucia Harrop, specifically. They are tightly focused on making sure that both CIRES researchers and our NOAA federal partners are all working towards mutually defined goals.

Administration Team

Annie Fudale, Director Andy Wang, Deputy Director Jennie Bell Laura Burfield Marc Cloninger

Meghan Henderson Cayla Jones Nikki Joy Libby O'Neal Nan Regnier

Ingrid Simecek Lauren Stockwell Rebecca Stossmeister Dawn Williams Lin Yang

Finance

The finance team provides post-award services to help researchers effectively manage and spend funding appropriately from sponsored projects, general funds, gift funds, and service centers. We also work with OCG, CCO, and other CU central offices on all aspects of your work listed below.

Director: Annie Fudale; Deputy Director Andy Wang

Leadership

The CIRES Senior Management Team (SMT) is part of the institute's leadership structure, along with the Executive Committee and Fellows. SMT works with the CIRES Director to navigate the inevitable complicated issues that arise for a large institute embedded in a world-class research university (CU Boulder), serving a critical national science organization (NOAA) and other sponsors. The SMT includes the directors of communications, finance, proposals, HR, IT, the Associate Director for Science, and the Associate Director of CIRES. The team strives continually to put the needs of the CIRES community at the forefront, with a focus on minimizing the administrative burden on CIRES researchers, ensuring our science has room to thrive.

Directors: Waleed Abdalati, Maggie Tolbert, Christine Wiedinmyer

Angela Knight, Director Melissa Aalders Christen Cousins Janet Garcia

Emily Hinga LuAnn Line Jazmin Surface Jimena Ugaz

Human Resources

The CIRES Human Resources Team supports all CIRES employees with your HR needs to help make CIRES an employer of choice.

Diversity, Equity & Inclusion (DEI)

The CIRES DEI program is committed to fostering diversity within our workplace and establishing an inclusive culture where people of all identities thrive. We work to engage equitably with community partners to guide our commitment to addressing environmental challenges.

Please feel free to contact our DEI Director, **Dr. Becca Edwards** (becca.edwards@colorado.edu), for information on the CIRES DEI Strategic Plan, events and resources.

Communications

CIRES Communications helps the general public, media, policy makers, scientific colleagues, and funders understand the value of CIRES research to local communities, the region, the country, and the world. Let us know about your work!
